

## PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Donald Hagemaster  
DOCKET NO.: 05-25260.001-R-1  
PARCEL NO.: 32-05-311-013-0000

The parties of record before the Property Tax Appeal Board are Donald Hagemaster, the appellant, by attorney Rusty A. Payton and the Cook County Board of Review.

The subject property consists of a 47-year-old, one-story style single-family dwelling of frame construction containing 1,724 square feet of living area and located in Bloom Township, Cook County. Amenities include two full baths, two fireplaces, a full basement and a two-car garage.

The appellant, through counsel, presented evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of one-story style single-family dwellings of frame construction from 42 to 52 years old. The comparable dwellings contain one or two full baths, additionally one has a fireplace, and one has a basement. The comparables range in size from 1,333 to 1,704 square feet of living area and have improvement assessments ranging from \$6.13 to \$6.80 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$3,244, or \$9.97 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing two suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	3,244
IMPR.:	\$	11,700
TOTAL:	\$	14,944

consist of one-story style single-family dwellings of frame construction. The comparables contain one or two full baths, basements air conditioning, fireplaces and garages. One of the properties is 48 years old; the age of the other is unknown. These properties contain 1,301 and 1,3601 square feet of living area and have improvement assessments of \$12.20 and \$9.62 per square foot of living area, respectively. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Property Tax Appeal Board places the most weight on the appellant's comparables two through four. These properties are similar in size location and amenities when compared to the subject and finds these three properties the most similar when compared to the subject. The Board places diminished weight on the remaining properties due to disparities in size, location and amenities. The Board finds that the appellant's comparables two through four have improvement assessments ranging from \$6.63 to \$6.80 per square foot of living area. The subject's per square foot assessment of \$9.97 falls above the range of the properties found the most similar. After considering adjustments and the differences, particularly in size, of the parties' comparables, the Board finds the subject's per square foot improvement assessment is not supported by the properties found the most similar.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
